Attention: **JOYCENT M. RAMOS**
Designated Pollution Control Officer

Dear Sir/Madam:

Environmental Greetings!

This has reference to the table monitoring conducted by our technical staff on your gasoline station. The following are the recommendations formulated:

Recommendations:

1. Environmental Compliance Certificate (ECC) with Reference Code ECC-R08-1502-0022 amendment due to the capacity increase of Underground Fuel Tanks from 24 kiloliters to 30 kiloliters
2. To secure a Pollution Control Officer Accreditation of Joycent M. Ramos and;
3. To secure the renewal of Permit to Operate Air Pollution Source and Wastewater Discharge Permit prior to the resumption of operation.
4. Furnish EMBR8 a letter or communication from the proponent about the “no operational” status.

As such, you are hereby enjoined to comply with the recommendation in compliance with the requirements of the Environmental Laws and its Implementing Rules and Regulations of **RA 8749, RA 9275 and PD 1586.**

Please be guided accordingly.

Very truly yours,
