TIME 4:07 PM

Dear **Mr. Alagon**,

This has reference to your clarifications for the upcoming bidding of this Office on the project **EMB-NCB-GOODS-01-2022 Supply, Delivery, Installation and Testing of 29 Sets of SWM Equipment Consisting of Brand New Biodegradable Waste Shredder, Brand New Composter and Brand New Solar Powered 4G network Camera Kit and Monitoring Equipment for the DENR-EMB to Support LGUs in Region 8 for CY 2022.**

Herewith are our reply to your clarifications:

*Clarification No.1:* The required Authorized Service Center in Region 8 is not necessarily owned by the bidder, but, it should be an accredited service center of the supplier/bidder for the offered equipment.

*Clarification No.2:* We require to submit a confirmatory analysis result from the Fertilizer and Pesticides Authority (FPA) and/or EMB-ERLSD to ensure that the offered equipment can produce a commercial grade compost. However, it was agreed during the pre-bid conference that the Business/Mayor's permit of the bidders are not necessarily in line in the business of fertilizer as dealer or distributor.

*Clarification No.3:* We allow subcontracting for the supply of CCTV since we know that the supply, delivery and installation of CCTV is another line of business with that of the biodegradable waste shredder and composter. Also, we did not require any document as proof of subcontracting with the supplier of CCTV since it is the contracting entity who has direct obligation to the procuring entity. It is important to mention that the procuring entity will have no undertaking with the subcontractor of CCTV, but, with the contracting company itself.

For your guidance and reference.

Very truly yours,

  
**JOSEPHINE B. GRAVOSO**  
Chairperson, Bids and Awards Committee
