April 22, 2022

HON. SATURNINO MEDINA, JR.
Municipal Mayor
Isabel, Leyte

Attention : **MS. ALMIRA VILLASERAN**
MENRO, Isabel

Dear Mayor,

This pertains to the water quality monitoring conducted on March 8, 2022 at Matlang and Dupong Bays, Isabel, Leyte. These waterbodies are monitored monthly/quarterly being the receiving body of waters of LIDE locators and as water quality management area. The activity was participated by the representatives from LGU Isabel and EMB-R8.

The water quality monitoring results showed exceedance on Phosphate at the station near Philphos Outfall at Matlang Bay (see attached Laboratory Analysis Report). The exceedance was determined based on the standards for Class SC waters as provided in the Water Quality Guidelines (DAO 2016-08).

In view thereof, we would like you or your authorized representative to attend a Technical Conference on **April 26, 2022, 10:00 AM** at EMBR8 Conference Room, DENR8 Compound, Brgy. 2, Jones Extension Tacloban City to discuss the findings of the monitoring conducted and determine measures to address the concern within your municipality.

Your presence is highly appreciated.

Very truly yours,

REYNALDO B. BARRA, PME.
OIC- Regional Director
