25 March 2022

MR. PAUL JAMES P. ANCAO

Store Manager / Pollution Control Officer
Jollibee Palo Drive-Thru
Palo, Leyte

Dear Sir:

Environmental Greetings!

This has reference to your submission of documents regarding the hauling of Grease Waste (H802) at your establishment on March 16, 2022 conducted by Soliman E.C. Septic Tank Disposal.

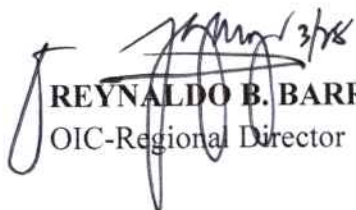

We would like to ask for a clarification about the Hazardous Waste data in Module 2B of your submitted Self-Monitoring Report (SMR). Upon thorough evaluation of the 2nd and 3rd quarter 2021 SMR, the total declared quantity of grease waste equates to 85 Liters. Also, in the 4th quarter SMR, there is no more declared amount without any details of transport of H802 waste for the said quarter. Consequently, the five (5) metric tons hauled is far more than the declared quantity in your SMR.

Please send your written explanation on the clarification on or before April 8, 2022.

Moreover, submission of documents containing false information is considered as an administrative violation under Table 11.1 of the Prohibited Acts and Penalties of DAO 2013-22 of RA 6969.

Please be guided accordingly

Yours truly,

REYNALDO B. BARRA, PME
OIC-Regional Director
