Dear For. Sanchez:

Re: Request for Training on Laboratory Practices and Analysis

The Regional Environmental Laboratory of this office is willing to grant your request given that the training will be done on May 16-20, 2022 and of the following conditions:

1. The Analysis that will be part of the training will only be limited to Biochemical Oxygen Demand and Total Suspended Solids for Physico-Chemical Analysis and Fecal Coliform Count for Bacteriological Analysis.
2. Only two personnel are allowed to enter to each lab room. Please keep in mind that the laboratory is operational therefore, there will only be one analyst to accommodate a trainee for each parameter.
3. Trainee(s) are required to bring their own personal protective equipment such as laboratory gowns, masks, goggles etc.
4. A trainee will only be given a certificate of completion provided that the trainee had attended and completed the analysis.
5. The laboratory and/or the office will not provide food, transportation, and accommodation to the trainees.

If the conditions mentioned above are amenable to you, please send confirmation to our email r8support@emb.gov.ph or embr8_lab@emb.gov.ph.

Very truly yours,

ENGR. REYNALDO B. BARRA
OIC Regional Director
