HON. EDUARDO C. ONG

Municipal Mayor
Carigara, Leyte

ENVIRONMENTAL MANAGEMENT BUREAU
RELEASED BY: 
DATE: 2/15/2022
TIME: 11:52am

Dear Mayor Ong:

We are providing you again the following results of our continuing monitoring of the recreational waters in your municipality under our Priority/Other Recreational Water. The monitored beach is (Fronting Karigusan Beach Resort) located at Brgy. Tangnan, Carigara, Leyte.

Sampling Date	Concentration (MPN/100 mL)	
	Fecal Coliform	DENR Standard for Classified SB waters
July 2021	36	100
August 2021	170	
September 2021	9.2×10^3	
October 2021	1.6×10^4	
November 2021	170	
December 2021	180	

In connection with the above monitoring results, we **reiterate** our recommendation that the Environmental or Sanitary Unit of your office shall identify the possible sources of high Fecal Coliform and require the identified source/s to construct treatment facility and to stop discharging untreated wastewater to the waterbodies. ***This is a recurring issue that needs to be addressed.*** As we all know, the Clean Water Act of 2004 (RA 9275) provides that it is the role of the local government units to monitor the water quality of any waterbodies and implement measures to prevent and control water pollution.

Again, it is requested that the agency be informed of any actions that your office has undertaken which is relevant to the recommendations cited above.

We will highly appreciate your immediate action of the above matter.

Very truly yours,

ENGR. REYNALDO B. BARRA
OIC-Regional Director
