TIME: 1:51pm

Dear **Dir. Enriquez**:

Environmental Greetings!

This Office is respectfully writing upon the instance of a complaint against the alleged contamination of a deep well due to Fuel Leakage or Spillage in Brgy. 74, Lower Nula Tula, Tacloban City. The complainant contends that the water from the deep well exhibits a dark coloration with a suspicion that it was contaminated by fuel or gasoline coming from the nearby gasoline stations situated nearly to the complainant's private lot.

An investigation on the matter was immediately conducted by personnel of this Office. Water samples were collected and will be subject to analysis of relevant parameters. At any rate, this Office shall proceed with the appropriate actions and shall keep the complainant informed on the status of the complaint.

On this note, considering that the subject matter involves soil contamination, this office would like to respectfully implore your good office to conduct further inspection and appropriate action as may be deemed necessary as the office with personnel experts in this field.

Thank you very much as this Office anticipates for your positive action on the matter. Best regards.

Respectfully,

[Signature]
ENGR. REYNALDO B. BARRA
OIC- Regional Director
