Dear Mr Javar:

This is to acknowledge receipt of your Laboratory Result Analyses for surface water bodies, groundwater, and ambient air quality submitted to this Office on 08 February 2022.

Based on the evaluation, the report submitted was found to be acceptable as per requirement stated in the following conditions of your Environmental Compliance Certificate (ECC) with reference number **9106-022-301C**:

B.5 That monitoring of the physical and chemical analyses (pH, color, TSS, Cr, Mn, and Co) of all surface waterbodies that can be affected by the project operation shall be conducted in the EIS submitted semi-annually and at the stations established in the EIS submitted analysis shall be submitted to DENR-Region VIII and to this Office semi-annually;

B.6 That monitoring of the physical and chemical properties (pH, color, Chloride, Sulfate, Manganese, Iron, Chromium, Zinc, hardness, TSS, TDS and total coliform) of domestic drinking water shall be conducted in the EIS submitted semi-annually and at the stations established in the EIS submitted analysis shall be submitted to DENR-Region VIII and to this Office semi-annually;

C.3 That monitoring of air quality for total suspended particulates shall be conducted semi-annually and results of analysis shall be submitted to this office and DENR-Region VIII semi-annually;

Please continue your compliance with the conditions presented in the ECC, intended to protect and mitigate the project's adverse impacts on community health, welfare and the environment.

Thank you for your cooperation.

Very truly yours,
